

# HIGHER CORN PRICES RESULT OF DEPLETIONS

Chicago, March 29.—Higher prices in the corn market resulted today to a considerable extent from scantiness of the stock on hand here and from the fact that receipts this morning have no indication of any important increase of the crop movement.

Crippling of wire service, however, confined demand almost entirely to Chicago traders. Besides gossip was current that plans were being worked out for a better distribution of railway cars.

Opening prices, which ranged from 1/4 to 1/2 higher, with May \$1.56 1/4 to 1.56 1/2, and July 1.50 1/4 to 1.51, were followed by a slight general setback, and then by new upturns.

Continued export demand for rye and wheat was a bullish factor in the past part of the day but was partly offset by lack of foreign call for oats. Corn closed unsettled, 1/2 cent lower to 1/4 advance, with May 1.55 1/4 to 1.56 and July 1.50 1/4 to 1.51.

Oats were firmer with corn. After opening unchanged to 1/4 higher, including July at 79 1/2 to 79 3/4, the market sagged a little, and then hardened again.

Provisions showed strength. Labor difficulties at the stock yards appeared to be in some degree responsible.
